PROJECT NAME

Streamlining IT Procurement: Automating Standard Laptop Order...

TEAM ID

SWTID-2026-3408

DATE

15 February 2025

PURPOSE & OBJECTIVE

- Solve complex procurement bottlenecks in a way that fits user workflow demands.
- Sharpen communication with automated trigger-based notifications & live statuses.
- Increase solution adoption by tapping into existing ServiceNow & Teams channels.
- Understand current manual inefficiencies to improve onboarding turnarounds.

1. CUSTOMER SEGMENT(S)

CS

Who is your customer?

Primary: Enterprise IT Administrators & Procurement Officers.

Secondary: Hiring Managers & New Employees needing day-one hardware.

6. CUSTOMER CONSTRAINTS

CC

What constraints prevent choices or action?

Strict IT governance and pre-approved hardware tier budgets.

Legacy vendor integration protocols and security approval policies.

5. AVAILABLE SOLUTIONS

AS

What alternatives exist today?

Manual email approval chains & disconnected Excel tracking.

Standard IT service tickets requiring manual dispatch at every tier.

2. JOBS-TO-BE-DONE / PROBLEMS

J&P

Which jobs/problems do you address?

Procure standardized laptop packages without redundant manual data entry.

Route multi-tier approvals efficiently to prevent onboarding delays.

9. PROBLEM ROOT CAUSE

RC

What is the real underlying reason?

Isolated software tools without automated workflow orchestration.

Non-standardized request options triggering custom approval cycles.

7. BEHAVIOUR

BE

What do customers currently do?

Send follow-up pings to managers and procurement for order signatures.

Manually cross-check ticket numbers on external vendor tracking sites.

3. TRIGGERS

TR

New employee onboarding event created in HR portal.

Laptop hardware failure or scheduled refresh cycle.

10. YOUR SOLUTION

SL

Flow Designer Automated Procurement Engine

Automated Flow Designer: Triggers multi-level approvals dynamically upon request.

Catalog Standardization: Replaces custom requests with pre-set hardware profiles.

Vendor Integration: Automated order dispatch and live status updates.

8. CHANNELS OF BEHAVIOUR

CH

8.1 ONLINE CHANNELS

ServiceNow Service Catalog, Automated Teams/Slack notifications, System Webhooks.

8.2 OFFLINE CHANNELS

IT Asset Locker distribution, Physical onboarding desk hardware handovers.

4. EMOTIONS: BEFORE / AFTER

EM

Before: Anxious & frustrated by opaque approval delays.

After: Confident, in control, empowered by Day-1 readiness.
